Agile Project Planning - Create a one-page project plan for a new software feature using Agile planning techniques. Include backlog items with estimated story points and a prioritized list of user stories

Project:
  Book Recommendation System

Objective:
  Develop a book recommendation system to enhance user engagement and   satisfaction by suggesting relevant books based on user preferences.

Backlog Items:

User Story: As a user, I want to rate books I've read.
Story Points: 3
User Story: As a user, I want to receive personalized book recommendations.
Story Points: 8
User Story: As a user, I want to see reviews and ratings for recommended books.
Story Points: 5
User Story: As a user, I want to filter recommendations by genre or author.
Story Points: 5
User Story: As a user, I want to discover new releases and bestsellers.
Story Points: 3
Prioritized User Stories:
  User Story: As a user, I want to receive personalized book recommendations.
Story Points: 8
User Story: As a user, I want to see reviews and ratings for recommended books.
Story Points: 5
User Story: As a user, I want to filter recommendations by genre or author.
Story Points: 5
User Story: As a user, I want to rate books I've read.
Story Points: 3
User Story: As a user, I want to discover new releases and bestsellers.
Story Points: 3

Sprint Planning:
Sprint Duration: 2 weeks
Sprint Goal: Implement personalized book recommendations and basic filtering functionality.

Sprint Backlog:
Task 1: Design user interface for rating books
Task 2: Develop recommendation algorithm
Task 3: Integrate book review and rating system
Task 4: Implement filtering options for genres and authors
Task 5: Display new releases and bestsellers on the homepage

Sprint Review:

Demonstrate personalized recommendation feature and basic filtering to stakeholders and gather feedback for further improvements.
